HOW IT WORKS

CIVIL SOCIETY ONLY

International, national and specialist NGOs, human rights organisations above all. Nearly all admitted by a network that publishes its own criteria; the few that are not are marked as such.

CITABLE, AND KEPT

Each dispatch carries a permanent reference, so a citation keeps resolving when a link moves or a page is reorganised.

NOTHING REWRITTEN

Every entry points to the document on the publisher's own site. No summaries, no editorial ranking; the order is chronological.

SIX LANGUAGES

English, French, العربية, Español, فارسی, Українська. Right-to-left is native. Translations are labelled, with the original one click away.
